

Ann Louise Altschuler

February 14, 1962 - May 19, 2019

Ann was born in Galveston, TX on February 16, 1962. She was born with multiple congenital defects which she bravely endured throughout her life time. She accepted pain as an intimate part of her life and did not object to the multiple surgeries throughout the years. She moved with her family to Houston, TX in 1963 and eventually graduated from Memorial High School and attended 2 years of college. However her physical limitations prevented her from continuing her dream of becoming a nurse. She never complained and treasured her friends and family. She enjoyed watching the Houston Astros and Texans. Her favorite companion was her cat, Sparkles. She lived independently with her roommate, Becky for many years and enjoyed outings by driving to Galveston. She had fond memories of beach weekends with her family.

She is survived by her father, Milton Altschuler, MD and his wife, Susan along with her mother Elaine J. Altschuler, her older sister, Marilynne Franks Bleeker and her brother-in-law, Alford Bleeker, and her favorite nephews, Andrew Franks and his wife Miriam together with Brian Franks.

She fought a long, hard painful battle with many surgeries and hospitalizations without complaining and now has found peace without pain following her death on May 19, 2019.
