MM

“ Arnold and Charis were one of the 1st road reps I met in 1984. Loved his stories about how he started with Lollytogs living in Brooklyn NY at the time, then re locating to Texas. I feel honored to have known him. He was a great coworker and I have been Blessed to have stayed in touch with him and Charis over the last few years. He will truly be missed. He will now be in Heaven above with all the founders of a Great Company that he and Charis worked hard to help build to what it is today. RIP Arnold. You will always be in my heart. Prayer to Charis your children and Grandchildren. Monica M

“ My condolence to all the Aronson family. Arnold was a great friend to my entire family. He always had a smile on his face when he greeted you. I love how he started our appointment s with a joke or funny observation. He cared about you the individual. He loved bragging about his grandchildren. He was a very generous man in participating.in our community fund raisers. I enjoyed his stories from the early working years on the road and comming to Texas. He will be missed.
