

## Dr. Arthur Sherwin Weston

May 27, 1929 - April 21, 2022

Dr. Arthur S. Weston drove a popsicle truck to get through Harvard University and received his Medical degree from the University of Michigan. Dr. Weston was a pioneer in cardiovascular medicine. His accomplishments included developing treatment using statin drugs, treatment protocols for life saving surgery for abdominal aortic aneurysms and participated in early heart transplants. Dr. Weston had great medical detective skills and even was a resource in solving crimes. He loved the outdoors and was an avid hiker, golfer, and skier. The Weston home was a crossroads of interesting people from the worlds of medicine, politics, and international culture. Following the care recommendations for health, Dr. Weston enjoyed a long and healthy life as did his parents. He is survived by his companion Brenda Robertson, daughters Marjorie, Laura (Chris), and Pam. Grandchildren, Maurice, Matthew, Johnathan, Julia (Sam) and Valerie. Great grandchildren Ben, Emily, and Candence.
