“ In 2019, Galina came to visit in NJ, we had her over our house with our big family. She quietly took me by the arm and we headed upstairs. She told me how proud she was of me and the life i have built. She expressed her love and her gratitude for staying in touch with her family. We visited Texas as well and had a wonderful time together. My favorite memory of that trip is Galina giving a fun bath to my Hannah who was 1 at that time. She made bubbles, threw household toys in there and we all enjoyed it. Oh! and going to the outdoor restaurant all together with Dana, Jimmy and kids. We were out till late. talking, listening to music, and enjoying each others company. Galya will truly be missed. A person with a big heart, so much knowledge, and just an amazing woman all around. I am grateful to be her family and i will make sure i keep her memory alive ❤️
